LONGITUDINAL
BANDING

GAMMA

LONGITUDINAL BANDING

LONGITUDINAL BANDING INSTALLATION FOR HOME TEXTILE.

Alignment, labelling, banding, sewing of all home textile flexible materials. The longitudinal banding machine **GAMMA** can successfully complete all lengthwise processing procedures with an incredibly high level of quality.

Since 1975 we have increasingly deepened, through a constant and accurate system of research and development, how to get high quality in the process of the longitudinal banding without compromising efficiency, productivity and flexibility. And so born **GAMMA**, the latest generation of longitudinal banding machine, which combines the use of the most advanced technologies with maximum usability.

State of the art in achieving the greatest goal: customer's satisfaction.

FOR BETTER PERFORMANCE AND QUALITY

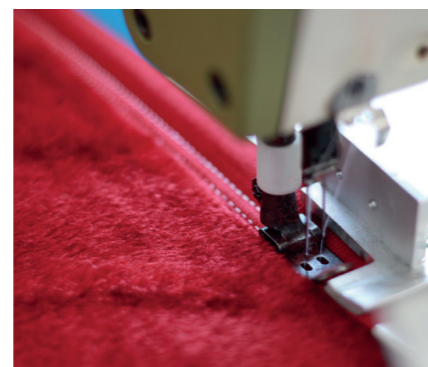

Uncompromising performance and quality. This has been the guide line to develop the last generation longitudinal banding machine. Only through a perfect symbiosis between these two features, it is possible to obtain an installation granting the right efficiency in the production process.

EFFICIENCY AND PRODUCTIVITY

The speed in banding as well as a technology based on intelligent control systems, grant an unprecedented productivity and efficiency in the working process, with the main aim to get an attractive cost-performance ratio.

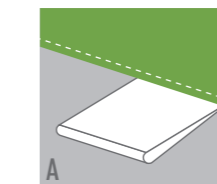

RELIABILITY

Innovative technology and superior manufacturing grant a result in reliability and low maintenance cost. Industrial engineering, quality of construction and made in Italy are all combined in **GAMMA**.

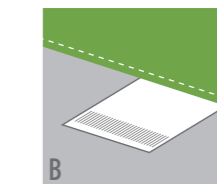

CUSTOMIZE AS PER YOUR REQUIREMENTS

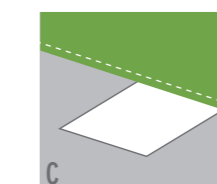

Label options

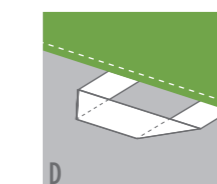

Folded label

Bar coded label

Flat label

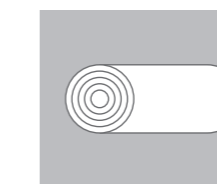

Delta shaped label

Sewing options

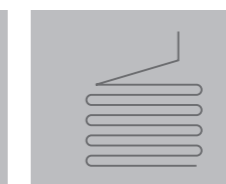

- Chainstitch
- 2-needle Chainstitch
- Lockstitch
- Cover Stitch
- Overedging
- Other options available

Feeding options

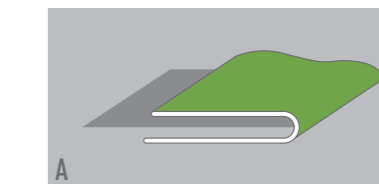

Role

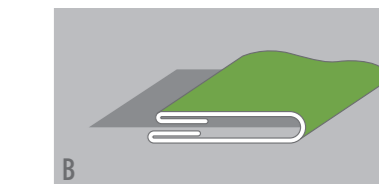

Plaited

Band options

Single fold

Double fold

Tape width options

Standard from 30 to 100 mm. Further widths on request.

Range of home textiles

BED LINEN
Bed covers
Bedspreads
Blankets
